Access	Excel	PowerPoint	SSRS	Word	GitHub	XML	NUnit	Spring MVC

Web Development (Minor):

jQuery	Angular	Bootstrap	Vue React	Ruby on Rails	Wireframing	Usability

Mainframe (Minor):

Cobol	MVS/ICL	DB2	IDCAMS	ISPF	FTP	IEFBR14

EMPLOYMENT HISTORY

Dietary Worker, Wayne County Hospital, Corydon, Iowa   (January 2022 – Present)
- Communicate with consumers to give the best and most efficient services
- Working in a fast-paced and ever-changing environment
- Demonstrate high attention to detail and proper execution of all guidelines and tasks given
- Cooperate with and work with team members to effectively complete objectives

PROJECTS

- Developed fully working Java projects using Spring, Thyme Leaf, CSS, and MySQL to create full stack applications that allows user to run databases through the front end by connecting to the backend of the program.
- Developed Cobol programs that used sequential and indexed files. These programs performed major/minor control breaks, validation, decision-making structures, rounding, and loops to create user friendly applications.
- Developed responsive and user-friendly web applications that serve multiple purposes using HTML, CSS, JavaScript, and many web frameworks such as ReactJS, NextJS, and Cypress.
